

CallThru[®] Phone System & IVR

Isn't it time for real integration?

- All the PBX features of a standard phone system plus TOTAL integration
- Associate call data with Debtmaster[®] users and accounts
- View collector queues and listen in to calls for control and training
- Bring Debtmaster data "text-to-speech" for customized IVR functions and phone payments
- IP technology for seamless remote agent capabilities

"IVR payment options give debtors exactly what they are looking for; 24-hour availability!"

Cloud & Tidwell, LLC

The Industry's ONLY Collections-Specific Phone System!

If you're going to use a phone system to drive your every phone call, why rely on outdated technology? And if you're looking to purchase a new system today, you owe it to yourself to check out the perfect match for your Debtmaster platform.

Comtronic designed the CallThru PBX to provide your Debtmaster system with hands-free dialing, inbound screen pops, phone number capture, IVR payments, and so much more.

In fact, CallThru is the industry's first system designed exclusively for collections! Imagine a unified platform that can easily double your debtor contact rates **AND** provide click-button reports to break it all down for you and your clients. If you use Debtmaster, this is the phone system that can turbo-charge your agency.

Finally, a PBX with TRUE Return on Investment

- ✓ Revolutionary Sound Quality with Polycom[®] HD Voice[™] Technology
- ✓ Multi-lingual IVR interacts with Debtmaster for completely customized call handling
